

Our commitment to quality ensures that you get the product you need on time, every time.

Requirements for Export License Application

General Note: The State Department export license is valid for 48 months (four years) from date of approval. A valid export license is required for the export of any quantity of spherical aluminum powder (and some alloy powders) outside of the United States. The license quantity cannot be exceeded at all, and the value can only be exceeded by ten percent. In order to expedite multiple shipments, the quantity entered on Form DSP-83 should represent the maximum potential quantity to be purchased over the four-year duration of the export license. Note: This quantity is not binding and there is no obligation to purchase the full amount.

1. Master purchase order or contract to purchase material. This is required even for small sample quantities. The purchase order quantity and value must match the stated amounts on the Form DSP-83. Individual releases or purchase orders may be issued against the master (or blanket) purchase order as material is needed over the 48-month license period. NOTE: MUST PROVIDE PURCHASING COMPANY'S EIN/TIN (Tax Identification Number).
2. Complete name and address of foreign end user (*). This is the final destination of the powder purchased from Valimet.
3. Complete name and address of intermediate foreign consignee, if any. This may be a forwarding agent or another party involved in the transfer of the material outside of the United States (*). NOTE: MUST PROVIDE THIS PARTY'S EIN/TIN (Tax Identification Number). Any party that has direct contact with the material must be listed on the export license application.
4. Detailed statement of end use. This must be provided separately on company stationery and reference the purchase order/contract numbers. The end use statement must include specific program names and/or specifications, if applicable. Any supporting technical data would be extremely helpful.
5. Name and address of designated freight forwarders or custom brokers to be used in the transaction, both domestic and international (*). NOTE: MUST PROVIDE THIS PARTY'S EIN/TIN (Tax Identification Number). This information is required for customs clearance in the country of destination.
6. Completed Form DSP-83, duly signed by end user. If for government or military application, this form must also be signed by a government official in the destination country.
7. Completed Export Authorization Form (if applicable). If you wish to have the freight costs billed directly to your freight account Valimet requires written authorization in order to file the Electronic Export Information on behalf of the customer.

(*). This information must be provided on a separate document on company stationery or included on the purchase order.
